### SEMA Sets 16 Disaster Public Assistance Briefings for County Officials

The State Emergency Management Agency will conduct a series of 16 Disaster Public Assistance briefings for state, county, city, special district officials, and certain private non-profit organizations. Missouri received two Presidential Disaster Declarations for Public Assistance as a result of the **March 8-13, 2006 and the March 30-April 3, 2006** tornadoes and severe weather.

The briefings have been consolidated to decrease travel time for county, cities, towns, special districts or other political subdivisions within the declared Counties: Andrew, Benton, Bollinger, Boone, Carroll, Cedar, Daviess, Greene, Henry, Hickory, Iron, Morgan, Perry, Pettis, Putnam, Randolph, Ray, Saline, St. Clair, Webster, and Wright. At the briefings, officials will be asked to submit a Notice of Interest for Public Assistance. **Any potential applicant may attend any scheduled briefing.**

Officials are eligible to apply for disaster assistance for **Emergency Work** including debris removal and other immediate actions to save lives and **Permanent Work** to repair or to replace facilities damaged by the March 8-13 or March 30-April 3, 2006 tornadoes and severe weather. **Private Non-Profit organizations** may also be eligible for assistance if they meet the federal definition of educational, utility, emergency, medical or custodial care facility or provide an essential public service such as a zoo, museum, library, community center, homeless shelter, senior citizen center, shelter workshop.
